

Christian radio has helped me to become a better Christian, mother, friend, and citizen. Why is it wrong to have a message that teaches one about loving and respecting others despite the fact that they mame, kill, abuse, disrespect and swindle others? Why is it that foreign-speaking radio stations are allowed to be on the air? They do not represent a cross-section of the population because many of us don't speak their language and therefore do not benefit from the airing of their programs. Why are DJ's on certain talk radio shows allowed to cut off callers just because they don't agree with what the caller has to say?

We have the right to express our views and people who don't want to hear the message of God have the right to not listen if they so choose.
